PROFESSIONAL EXPERIENCE

Final Year Internship

Cofitel

25/01/2025 – 10/05/2025 Sidi Rezig, Tunisia

- Real-time monitoring of temperature and humidity using ESP8266 and Grafana.
- Face detection and recognition using ESP32-CAM and OpenCV.
- Automation of WhatsApp alerts and actuator control via Node-RED.
- Tools used: Arduino IDE, Python, Node-RED, Grafana, InfluxDB, MQTT, HTTP.

Technician Internship

Radès Power Plant (Step C)

18/06/2024 – 17/07/2024 Ben Arous, Tunisia

- Supervision of pumping and filtration systems.
- Participation in the automation of a conveyor system for marine waste.
- Use of HMI interfaces for real-time monitoring.
- Software used: TIA Portal.

EDUCATION

Professional Master's Degree in Industry 4.0

ENSIT – National School of Engineers of Tunis

Since September 2025 Tunis, Tunisia

Bachelor's Degree in Electronics, Electrical Engineering and Automation

Higher Institute of Information and Communication Technologies (ISTIC)
Major: Industrial Computing and Automation

September 2022 – May 2025 Borj Cédria, Tunisia

High School Diploma in Experimental Sciences

Ben Arous High School

2018 – 2022 Ben Arous, Tunisia

TECHNICAL SKILLS

Software
LabVIEW, Altium Designer, TIA Portal, Proteus ISIS, STM32CubeMX, STM32CubeIDE, ModelSim, MATLAB, Simulink, Xilinx SDK, SolidWorks, VS Code, Fritzing, Excel

Programming Languages
Python, C, C++, VHDL, UML

Web Development
HTML, CSS, JavaScript

Communication Protocols
HTTP, MQTT

Embedded Systems Programming
STM32, Arduino, ESP32

Supply Chain
Basic knowledge: logistics, flow management, process optimization, and scheduling fundamentals

INTERESTS

- **Painting**
  Passionate about visual arts, especially painting, with a drawing option completed during my high school studies.

ASSOCIATIVE LIFE

- Active member of Maker Labs ISTIC since 2022, a robotics club within the Higher Institute of Information and Communication Technologies.

LANGUAGES

ARABIC	Native
FRENCH	Fluent
